## **Herculaneum, Missouri**

### **• Community Advisory Group Meeting**

August 19, 2003  
Bruce Morrison, EPA  
Jim Silver, EPA (636) 475-3926  
EPA Toll Free Phone # 1-800-223-0425

## **Cleanup Progress**

- 197 yards completed.
- 88 home interiors cleaned.
- 100 vacuums distributed by EPA.

## **Property Access from Owners**

- EPA encourages owner access for yard soil replacement and interior cleaning.
- Soil replacement and interior cleaning are measures that will reduce the potential for exposure to lead dust.
- EPA offering to sample home interiors where homeowners are refusing interior cleaning.

## **Materials Handling and Transportation**

- EPA approved revised Plan on July 8.
- As of October 1, 2003, all concentrate delivery trucks will be rerouted through the facility and washed prior to exiting property.
- Additional measures to seal concentrate truck tailgates will be implemented.
- Green zone performance measure for lead dust required to be equivalent to non-haul route streets in Herculaneum.

## **Slag Pile**

- Accelerate time table for completing Engineering Evaluation/Cost Analysis (EE/CA).
- MDNR letter requesting EPA to concur on additional interim control measures to: Collect and treat runoff and protect the pile from 10-year storm events.

## **Home Interior Focus Group**

- Draft recommendations were received July 21.
- Comments were received early August.
- Meeting Scheduled for September 22, 2003.
- ATSDR Health Consultation will be requested on final recommendations.
